The Wilson Label Protects Your Table

TO prepare and distribute the necessities of life carries with it a great responsibility. To meet this responsibility demands two essentials—a policy, and an organization able to carry out that policy.

Our policy toward each user of our products is expressed in our slogan "The Wilson Label Protects Your Table." This is our code. It is our pledge. The Wilson V-shaped label is your guaranty that back of it is all the honesty of purpose, skill and expert ability humanly possible. It means that every Wilson product is selected, handled and prepared with the respect due the foods you will serve at your own table.

This respect governs our work. Your own mother, could not be more careful, more thoughtful or have more consideration for your enjoyment when she prepares the favorite dish for the family.

THE Wilson organization is one of thinkers—men able to make the Wilson policy genuine. We use our machine y to manufacture; we use thought in our management and our distribution. No man who is not capable of taking the customer's viewpoint is big enough or broad enough to share in the management of this company.

Our guaranty of Wilson products is unconditional. That is the only guaranty worth while, and when we make it we rely upon the fairness of every user of our products. We have found our customers fair, and we mean that they shall always find us just the same way—and that our label shall stand for this policy of ours unflinchingly.

We like to feel that the people who ask for Wilson products are our friends. We value their comment—whether praise or criticism. It helps us to continue to build this institution and to hold the confidence of the public.

INDIANS WERE LOYAL IN ALL WAR WORK

VOLUNTEER ENLISTMENT WAS
LARGE AND THEY WERE
HEAVY BUYERS OF BONDS

Washington, Dec. 16.—The American Indian, by enlisting in the army and navy, by subscribing liberally to the Liberty loans, by increasing the production of food stuffs on Indian lands, and by contributions to relief agencies greatly aided the United States and the allies in winning the war, declared Otto Sells, commissioner of Indian affairs, in his annual report.

Mr. Sells said that out of 33,900 eligible for military duty, more than 6,500 Indians entered the army, 1,400 entered the navy and 500 were in other war work. More than 6,000 of the enlistments were voluntary. Liberty bonds were bought. Commissioner Sells said, until Indians now hold the equivalent of one \$50 bond for every man, woman and child of their race in the nation.

Through it all, Commissioner Sells declared, a new view of life and his responsibilities is coming to the Indian. The policy adopted in 1917 of giving control of their own affairs to as many of the Indians as possible has proven successful and fully justified, the report declares, adding that as fast as individual wards of the government become capable of self management, their properties will be turned over to them.
